

SOCIAL DEVELOPMENT Indonesia

DATA LEAD: Dewi Susanti

DATA LEAD EMAIL ADDRESS: dsusanti@worldbank.org

TEAM WEBSITE: <https://localsolutionstopoverty.org/>

MISSION

The primary focus of the Indonesia Social Development team is to collaborate and work with the Government of Indonesia on social development projects rather than developing tools and technology. The Social Development team launched Local Solutions to Poverty (LSP), a Multi-Donor Trust Fund that is assisting the government to improve the quality of life of poor and vulnerable Indonesians. Through a community driven development process, empowered citizens develop their own solutions to reduce poverty and inequality.

In partnership with the Government of Australia and the Millennium Challenge Account-Indonesia, LSP is managed by the World Bank's Global Practice on Social, Urban, Rural and Resilience and finances technical assistance, analytical and advisory services, as well as operations that support the Government of Indonesia's implementation of its community-based poverty alleviation platform.

CAPACITY

TEAM

5-6 people (Practice manager, 3 international GG and 2 local GG [mixture of GG and GS])

WORKSHOPS/EVENTS

No stand-alone workshops but integrated into everyday operations

SERVICES OFFERED

LSP assists the government to maximize the impact of its key development programs by producing and disseminating high-quality research and analytics, including from ongoing projects, in collaboration with other development partner activities

TYPES OF SERVICES

- Latest machine learning techniques for poverty targeting and non-traditional data sources;
- Setting up A/B testing in digital applications to improve functionality;
- Impacts of social media on inclusion.

PRODUCTS

LSP Annual Progress Reports

[http://documents.worldbank.org/curated/en/769161565169515856/Loca I-Solutions-to-Poverty-LSP-Annual-Progress-Report-2018](http://documents.worldbank.org/curated/en/769161565169515856/Loca-I-Solutions-to-Poverty-LSP-Annual-Progress-Report-2018)

Data analytics

Through evaluations or studies, ongoing field monitoring, and policy dialogue, the team provides Government and other stakeholders with evidence and real-time information on village law, community development, basic services, gender and inclusion, and others.

Indonesian national statistics office datasets

SUSENAS, SAKERNAS, PODES, IFLS

Tools

The team is working with government ministries on development of applications to improve local governance (in villages), teacher performance, and community health workers' impact.

PARTNERSHIPS

Internal

Health, Governance and Education GPs

External

- Indonesia-specific technology companies such as eWarung, GoJek,
- UN Pulse Lab
